Architype is a Civil Engineering fest organised by the Civil Engineering Association since 2012.

# ARCHITYPE 2012

## CARDstruction

A unique hands-on event where you got a chance to build various structures like Card-towers, Card-houses, Card-Bridges and anything else that you can imagine!

## Lego Legends

A design event which utilized Google SketchUp to take you back into the land of Lego.

## Urbanistica

Urbanistica, as the name suggests was an urban town planning competition. The event gauged the participant's dexterity with AutoCAD and their creativity in town planning. Through this event, you could grab a sneak-peak of how town planners make plans for infrastructure improvements in cities and also become abreast with the latest version of AutoCAD.

# ARCHITYPE 2013 (Nov 9th-11th)

**Bridge the Gap:** An online quiz event with questions related to Civil Engineering.

**Geoteknique:** An event designed to test the structural and geotechnical knowledge of the participants.

**Cliffhanger:** An online event to design a truss bridge, tested by imposing live load.

**Urbanistica:** A town planning event with real life problem statement pertaining to traffic management.

**Revit Workshop**

**Workshop visit**

# ARCHITYPE 2014 (Nov 15th-16th)

**Geoteknique**

**Srishti**

**Grid-Lock**
