### **MESSAGE**

Inauguration of the IChE Goa Regional Center is great news. My hearty congratulation goes out for the Department of Chemical Engineering, BITS-Pilani.

Many thanks for inviting me as a Guest of Honour. Alas, much as I would love to be there for the celebrations physically, it shall not be possible to do so due to prior commitments. I shall be present in spirit and take this opportunity to convey my heartiest wishes through this message for the successful and memorable inaugural celebrations.

However, I would like to share about JSW steel. We are India's youngest and largest steel manufacturer in private sector with a capacity of 18 MTPA. JSW Steel started its humble beginning in 1994 and has established itself as the fastest growing and one of the top 10 best operated steel plants in the world.

JSW has always believed in inclusive growth for sustainable prosperity. Inspired by the Prime Minister's visionary call for 'Make in India', JSW has embarked on the journey to contribute to the cause, through scientific and technological interventions that would enable inclusive economic development.

I am privileged to be associated with IChE- Goa chapter as an executive council member and am sure that there will be many initiatives to intensify efforts to provide innovative solutions by exploring new realms of knowledge and path-breaking developments.

Once again I wish you all very best for this inaugural event today.

Warm regards,

**Dr. Vinod Nowal,**  
Deputy Managing Director

Part of O. P. Jindal Group
