

The Department of Physics has organized a two days Workshop and Training in Current Research Trends in Condensed Matter-Material Science during 7-8<sup>th</sup> March 2014 under the aegis of UGC Special Assistance Programme (UGC-SAP). The workshop was aimed at young faculty members, research scholars and motivated and bright M.Sc. students. The department had invited 43 participants from nine different institutes across Rajasthan. The lectures were delivered by the faculty members of the Department and CSIR-CEERI working in the field of condensed matter – material science. Prof. Didier Sebilleau from CRNS France delivered spectroscopic techniques pertaining to the field. During the laboratory visit, the participants were given exposure and training to the advanced experimental facilities of the department in the above areas. Dr. Raj K Gupta and Prof R. R. Mishra acted as convener and organizing secretary of the workshop, respectively.
